# CHOCTAW HOARDING ITS COAL

Has 200 Tons Already Stored at Yards

TO IT ADDING

Dosen't Intend to Get Short on Fuel

Shawnes, O. T., July 9.-For several days past the Choctaw people have been pilling up tons of coal just west of the machine shop yards at this point. At this time there is something like 290 cars of coal in the long pile, and the quantity is being added to constantly.

Just what the motive for this boarding of coal during the summer months is, is not easy of explanation. The restlessness displayed by the miners of the en tire country may have something to do with it. The railroads have suffered durbeen confiscated to enable them to keep their trains in motion. The miners are making demands on the producers that may result in a strike, and the railroads knowing this, are evidently preparing for

The Prisco road is also piling up coal at each of their division points, and this activity in adding to their store of coal would lead one to the belief that a strike of miners, at no distant day, is immi-

#### GRADING THE ROAD. Thirty Teams at Work Repairing the Right of Way.

O. T., July 9 .- A large grading built is camping in the west part of town and thirty teams are at work closing up the grade through the city. Buildfings are rapidly being vacated, and arrangements made for the removal of the same from the right of way. The right of way property has all practically been purchased and the road bed will now be put in shape for immediate steel laying. The steel laying gang will reach Perry

in a few weeks, and trains will be runming in over the new line in time for the carnival to be given here on September 16. It will be a decided help in bringing persons from the cast and west on

The outlit located here has all good strong mule teams, and the work will be crowded through to a merry ending.

Willard T. Allen Shot His Wife Dead

RETURNED TO HIS HOTEL

Expected to Put up a Plea of Insanity

Oklahoma City, O. T., July 9-The Oklahoman says: Williard T. Allen, who in cold blood murdered his wife at Luther on Tuesday afternoon, was placed in a cell at the county pail at 9 o'clock

Allen was arrested in his hotel at Luther at about 5 o'clock last evening by Deputy Sheriff Sam Bartell of this city. After having scoured the brush all through the previous night and the greater portion of yesterday, the deputy sheriff and posse were surprised

to see him walk out from his hiding place leisurely and proceed to town and enter his hotel, where he was arrested a few moments later by Officer Bartell. He offered no resistance and his actions then and since lead to a surmise that he will put up a plea of insanity when brought to trial for his crime.

Allen told the officers he had not had any food during the time he had been in hiding, and was given his supper. He had nothing to say when the jail was reached, but asked for some coffee after being placed in the cell.

"Strange as it may seem," said Officer Bartell last night, "Allen seems to have the sympathy of the people at Luther, and at the depot there, as we were waiting for the train, a number of prominent citizens came up and, clasping his hand, said they regretted the occurrence, but deeply sympathized with him. This, notwithstanding the fact that the testimony which was adduced shows that the affair was a murder in cold blood." The verdict of the coroner's jury was to the effect that deceased came to her

SCHOOLS HINDERED. County Superintendent Is Needed in

Day County. Grand, O. T., July 9.-In the past many of the schools of Day county have been somewhat neglected. To add to this misfortune the county superintendent-elect has refused to qualify. In some parts of the county the districts are so large that many children are deprived of the schools Some districts are as much as twelve miles long. These irregularities can only be remedied by able work on the part of active workers. A thorough superintendent is a necessity-one who will get out among the people and assist in remedving these defects. The commissioners meet this week and an effort will be made to find an active school worker who is well qualified to fill the responsible office of county superintendent.

ENDANGERS THE STATE

Single Statehood Postpones Success of Measure

Guthrie, Okla., July 5-In the Dolly Eagle of Enid, the editor, Senator H. E. in Okiahoma as follows:

"There are citizens of hie territory who are contending for single statehood for community. Neither African nor Mexican the two territories, knowing all the while that to do so endangers the putting off of that important event for Oklahoma for years, when, with a united effort upon the part of the citizens, there would be no question about the granting of statehood at the next session of congress. It is to the interest of every citizen of Oklahoma that we have statehood and that too at an early date. We have no paa possibility of single statehood at an early date. They know better, and it is selfish interest that prompts such claims -claims made with a view of defeating statehood. If the sitizens of the territory back of Hon. DON'T GET IN A SWEAT

Perspiration-"sweat" is what the Bible and we common perple call it-is a way nature has of driving out of the body refuse that has no business there. We sweat more in summer, because, in the overheated bowels, undigested food ferments more quickly than in winter and produces irritating acids and gases. The bowels, overworked, try to relieve themselves by violent convulsions, causing terrible gripes and colics, and diarrhoeal discharges so acid as to make you sore, and leaving the intestines weak and worn out. Nature assists body-cleaning by sending the filth out through the pores of the skin. It is not safe to stop perspiring altogether but most of the impure matter should be sent out by natural movements of the bowels, and the offensive, ill-smelling linea-staining sweat done away with. Keep your bowels strong all summer with , the pleasant, candy cathartic CASCARETS, that clean the system and don't allow the excrement to be sweated out through the pores.
